

We embrace challenges

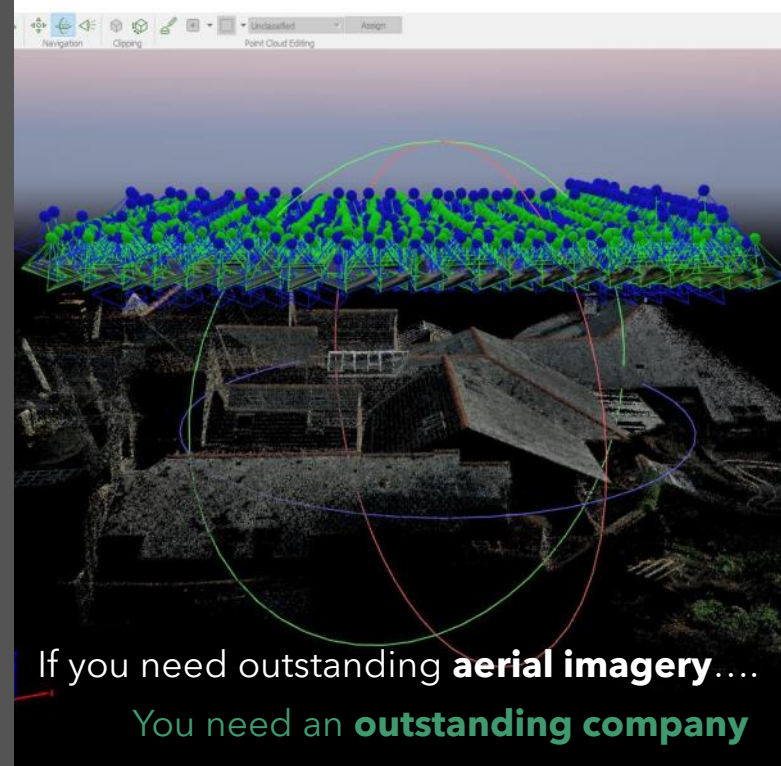

**SOUTHWEST
AERIAL SURVEYS**

South West Aerial Surveys is a leading UAV aerial mapping, survey and geographic data company

We deliver exceptional and cost-effective geo-spatial solutions

www.southwestdrones.co.uk

If you need outstanding **aerial imagery**....
You need an **outstanding company**

UAVs offer a **safer** and more **efficient** evidence-based alternative to traditional data collection methods for mapping, surveys and inspections.

UAVs are rapidly becoming the solution to significantly **reducing the cost** and dangers of data retrieval. Using our drone services for aerial data capture, you will save time and money

We maintain the highest level of safety in both our operations and with your captured data.

The rapid, safe, solution

Our fleet of professional enterprise-level UAVs capture data safely and quickly, whilst generating reliable and accurate outputs

DroneSafe Register Approved operator
